

NATIONAL FLOOD INSURANCE PROGRAM

Bureau and Statistical Agent

W-03026

MEMORANDUM TO: Write Your Own (WYO) Principal Coordinators and the NFIP Servicing Agent

FROM: WYO Clearinghouse

DATE: May 14, 2003

SUBJECT: NFIP's Community Rating System Training Module Now Available On-Line

The NFIP is pleased to announce the release of another on-line training module for flood insurance agents.

The new module—Community Rating System (CRS)—walks agents through CRS community eligibility requirements, creditable activities, classification rating points, and flood insurance premium discounts. It also describes the benefits of CRS for the community and the insurance agent. The module includes an interactive example of how to determine and apply the CRS discount when calculating a flood insurance premium.

The CRS module covers the first of four topics planned for the Platinum Level instructional series on the NFIP's Flood Alert Agent Training Station. Agents may access the Training Station at the NFIP web site (<http://training.nfipstat.com/portal/default.htm>). Agents who work through the new module are encouraged to email their comments to the NFIP by clicking on the "E" button on any screen.

Please distribute this information to others, as appropriate, in your organization. If you have questions or need additional information, please contact your Program Coordinator.
